PROFILE

Marisol is a highly skilled and experienced occupational therapist and case manager who has worked extensively in both private and statutory settings.

BIOGRAPHY

Marisol is an Occupational Therapist (OT) and case manager with over 12 years' experience, working with both teenagers and adults across the NHS and private settings.

Marisol specialises in case management of clients who have sustained catastrophic, life changing injuries. She is adept in conducting a comprehensive initial assessment, identifying their current needs and working with them to ensure they have the correct therapy, transport, accommodation, support package and any necessary specialist equipment.

She is confident and capable when designing and implementing complex rehabilitation and care programmes, ensuring treatment and support is optimized and client-centered. Marisol is also proficient in instructing and managing multi-disciplinary teams (MDTs)

Marisol works closely to assist clients' families with education about the client's injuries and their impact, ensuring they are appropriately supported from the early stages post injury.

She has a wealth of experience of working on a single or joint basis, receiving instructions from individuals, insurers, solicitors and financial deputies.

Marisol has a successful history of ensuring that therapy and rehabilitation recommendations are coordinated, effective and proportionate to each individual client.

She specialises in the case management of adults and teenagers following catastrophic brain and spinal injuries, amputations and those facing psychological and behavioral challenges.

She has experience of working within the litigation process as well as post settlement on high value claims.
